Opis produktu

Black vinyl version of Berator's stunning new release "Elysian Inferno". Comes with insert, black poly-lined inner sleeve, black flood jacket.

Four years after their devastating debut demo, Chicago death merchants Berator vomit forth 20 minutes of fierce, old school black/death on coke via Dark Descent Records. In an age where an over-polished sound is the norm, Elysian Inferno delivers a welcome reminder of just how ferocious and vehement extreme metal can be.

Guitarist Richard Olsen, who left behind his Profanatica duties to focus on BERATOR full-time, stresses the importance of production:

“The BERATOR EP was tracked live, just me and Dan (drums) in his studio, and we built around those live tracks for the record, which in itself, gives it a level of raw power you can’t get from a click. Tim Pearson (bass, ex-The Chasm) and Pat Clancy (guitar, ex- Nachtmystium) then added their parts. The sound is entrancing, excruciating, and insane, for people who appreciate forward, to the point, nonstop riffs. It’s a seamless record meant to be heard as 20 some-odd straight minutes of rhythm and violence.”

Dark Descent Records will release Elysian Inferno on CD, digital, vinyl, and cassette formats on June 10.
