Impending Doom (GER) – Apocalypse III (The Manifested Purgatorium)

The Thuringian band, originally formed in 1993 under a different name and known as IMPENDING DOOM since 1995 – throughout its ten years of activity – gained recognition far beyond Germany's borders through its expertly crafted blend of various Metal styles as evidenced by its numerous releases – including three studio albums – as well as more than 200 concerts played at home and abroad.

Although 25 years have already passed since the release of their third and final album, the interest in IMPENDING DOOM's legacy still seems undiminished.

At long last, Darkness Shall Rise Productions has taken on this chapter of German Metal history in its tried-and-tested manner. No expense or effort has been spared in reissuing (almost) the entire body of IMPENDING DOOM's work – comprising the releases from the pre-album phase and the three albums, including bonus material.

These definitive editions, crafted with great attention to detail, present the tracks with significantly improved sound quality whilst also leaving nothing to be desired in terms of layout and design ensuring that both long-standing fans and those who are only just discovering IMPENDING DOOM will be equally delighted.

There is no doubt that IMPENDING DOOM's third and final album *Apocalypse III – The Manifested Purgatorium* is their most aggressive and brutal release to date. Unlike many other bands, who become increasingly watered-down and softer over the course of their careers in the hope of greater success, IMPENDING DOOM's development seems to have followed exactly the opposite path. From album to album, the intensity and directness have increased. On *Apocalypse III* in particular, the band seem to have cast aside all unnecessary frills in order to distil the very essence of their sound in a completely unbridled and unfiltered manner.

Tracks such as "Hatespawn", "Obscure funeral" and "Revocation of creation" – to name but a few – captivate not only with their raw intensity, delivered with the pedal to the metal and at a superb technical level, but also with the stylistic originality – a blend of Black, Thrash and Death metal elements – that has been characteristic of IMPENDING DOOM since their first demo. *Apocalypse III* is the band's definitive statement not only because it's their final album but because it showcases the horde in its most developed and vicious form.

Including tons of unseen pictures and a new interview with all band-members.
Mastered and restored by Patrick W. Engel at Temple of Disharmony in March 2026.
