### Opis produktu

"**Anthropozän**" is divided into a number of movements that combine sublimated introspection, awe-struck reverberant melodicism and widescreen neo-classical grandeur. Concerned with the Anthropocene epoch - dating from the start of significant human impact on Earth's geology and ecosystem - the track ruminates on the self-destruction of humankind through preoccupation with short-term comfort and pleasure-seeking, serving as a perfect introduction to the breadth of sound from a young band already reaching expert heights of haunting magnificence.

*Comes with a download card. Pressed on black/oxblood merge vinyl. Colors on final record may vary to a degree from the mock ups.*
