Opis produktu

Limited Lime Green vinyl, insert.

Confessor's genre defying album Unraveled reissued in January

Confessor is a progressive doom metal band from North Carolina that made its mark on the underground metal scene in the late 80's by combining some of the genre's essential elements in a way that no band had attempted before. Once dubbed "the world's most obstinately technical metal band", Confessor's technically complex interpretation of traditional doom gained them a reputation also within the progressive metal circles. Their grand sophomore album *Unraveled* from 2005 will finally be reissued after two decades on January 16th via **Svart Records**.

Following the release of their 1991 debut album, *Condemned*, Confessor disbanded in 1994 while they were already planning a second album. Sadly, in 2002 the band's guitarist **Ivan Colon** passed away, and in tribute to Ivan, the band re-formed in order to play a benefit show for him. Things went so well, that they decided to continue after almost a decade apart. Their second full length *Unraveled* followed in 2005; an immensely satisfying and unique blend of majestic Doom Metal raised to the next level.

Unraveled is available on Svart exclusive Cream White/Green Marble vinyl, limited Lime Green vinyl, and classic Black vinyl. Release date January 16th, 2026.
