Opis produktu

The rumours are true: underground death metal legends Abhorrence are back.

Svart Records is proud to present to you Megalohydrothalassophobic, an all-new Abhorrence EP full of old-school Finnish death metal. The EP will be released by Svart Records on September 15th,.

They promised you they were still vulgar and still brutal. And 28 years later, they are. The lineup is the same as back in 1990, with the addition of drummer Waltteri Väyrynen, of Paradise Lost and Vallenfyre fame.

The old Abhorrence sound, reaching from death to doom to black and psychedelia, is all there on the EP. This time, the pioneers of death metal horror have dug their claws into the deep abyss of the ocean. True to their roots of nightmare and terror, Abhorrence brings you a vision of Lovecraftian horror in the age of the ecological catastrophe. The lyrics fuse together the deeply unsettling tales of H.P. Lovecraft with the thought-provoking philosophy of Timothy Morton, arguably the most important thinker of the anthropocene, the current catastrophic age of human existence.
