Opis produktu

25th anniversary limited red vinyl edition of **Gehenna**’s savage 2000 opus **Murder**.

The first pressing since the album's original release.

Norwegian band Gehenna was formed in early 1993, with the recording of their cult Black Seared Heart demo taking place later that same year, followed shortly by the release of the debut 7” Ancestors of the Darkly Sky. Gehenna became known for their melodic and grim black metal, with symphonic elements adding greatly to the atmosphere of the music, particularly on early releases.

Murder was Gehenna’s fifth album, & was originally released in 2000. Murder was notable for being generally more thrash metal based than its predecessors, though still containing much of the savage black & death metal attack which the band had been known for in the past. The album was recorded at Mansion Studio & Klepptomedia Studio, with Øyvind Grødem & Stig Kleppe.
