Experience CONFLAGRATION, the 11th studio album from MISANTHROPE, a monumental new chapter in the history of French Metal!

9 years after Alpha X Omega, MISANTHROPE returns with CONFLAGRATION, a blazing collection of 13 entirely new tracks forged in the excess, grandeur, and uncompromising artistic vision that have shaped the legend of France's cult Extreme Metal band.

This is a work of absolute rebirth, already giving rise to future classics such as:
• the epic saga "BLACK FALCON OF ANJOU",
• the flamboyant "THE DIAGNOSIS OF NEEDLES",
• the diabolical "HELLOÏSE OF CAIN",
• and the atmospheric Metal anthem featured in the music video "THE VAMPYRE COUNTESS".

With CONFLAGRATION, MISANTHROPE delivers a total work where every track erupts from a blazing inner fire. The band fully embraces its Extreme Metal heritage, severe, avant garde and majestic. While pushing even further the sophistication of its arrangements, the depth of its lyrical universe, the richness of its production, and the virtuosity of its performance.

This album is a dramatic and vertiginous ascent, chronicling the life and final confrontation of Molière's descendant, the conceptual hero "Alceste de Haine", as he wanders through an initiatory French journey spanning from 1666 to 2666. More than an album, it is a combustion of the human soul, a burning vision of our civilization itself. A creative inferno born from the band's unquenchable passion for Extreme Metal.

This 11th opus also marks a new era for MISANTHROPE: it is the first album fully recorded and mixed at Studio Henosis, offering unprecedented sound, rich textures, and finely detailed production.

The band's creative power is intact and amplified, harsher, more inspired, and more ambitious than ever. The philosophical, poetic, and meticulously crafted lyrics of S.A.S de l'Argilière reach a new pinnacle. From the very first riffs, MISANTHROPE asserts its unique aura. The compositions, of rare intensity, oscillate between extreme fury, suffocating atmospheres, and the virtuosic mastery of Jean Jacques Moréac, Anthony Scemama, and Gaël Féret.

The orchestral grandeur cultivated over decades returns in full force: MISANTHROPE resurrects its symphonic dimension with a renewed approach to orchestration, fused with a massive Metal sound.

Across more than 65 minutes of music, CONFLAGRATION unfolds a monumental sonic architecture, each track exploring a different facet of misanthropy, passion, and the tragic excesses of humanity.

This album stands as an essential milestone in MISANTHROPE's career, a work of fire and mastery, celebrating over 37 years of creativity, audacity, and innovation from true devotees of the underground Metal scene.

The magnificent cover artwork is created by world renowned Greek artist Giannis Nakos, known for his work with Kamelot, The Haunted, Septicflesh, Suffocation, and more. His powerful, detailed, mythological style elevates MISANTHROPE's cosmogony and gives CONFLAGRATION a visual identity as monumental as its music.
