Opis produktu

Combination of the last 2 EP's, MMXIX and MMXX.

From the creative and unmeasurable mind of Sébastien Besson from DYSYLUMN, we present you ABYSSAL VACUUM. MMXIX MMXX is a compendium of AV most recent EPs released in 2020 and early this year.

Fear not, intense and striking Black Metal from the deep of cosmos!

NOTE: The digital sound of this compilation is not exactly the same as on the respective EPs. A specific treatment was made for the vinyl release to harmonize the two EPs, some samples were also reduced, etc...

The Bandcamp digital here is therefore from the vinyl release.
