Mysticism, magic, occult arts, and ritual—these are not mere influences but the very lifeblood of AXEPONTAS. They form the essence of its image, the pulse of its sound, and the breath of its lyrical invocations.

AXEPONTAS stands as one of the foremost torchbearers of the second wave of Greek black metal, deeply rooted in the traditions of the original Hellenic scene while channeling the spirit of retro rock—particularly the arcane echoes of the '70s. Yet beyond music, the Coven remains devoted to the path of esoteric philosophy, occult praxis, and spiritual transmutation.

Conjured into existence in 1996 by V.P. Adept, AXEPONTAS has remained unwavering in its sacred traditions, forging a legacy as a magical coven dedicated to the ancient Sumerian mysteries of Drakonian Blood. The band's doctrine embraces the echoes of primordial wisdom, manifesting through Astral Vampirism, Hermeticism, Kabbalah, Dream Workings, and Luciferian Magic.

As V.P. Adept proclaims, "True sorcery is not an art—it is a Science. 'In order to DARE, we must KNOW; in order to WILL, we must DARE; we must WILL to possess empire, and to reign, we must BE SILENT.' We are real to those with eyes to see..."

AXEPONTAS stands beyond and against the veils of mundane illusion. In a world shackled by politics—the ultimate deception and enslavement of the mind—the Coven upholds the path of individual ascension, where spiritual evolution is the only truth and the only freedom.

For almost three decades, AXEPONTAS has not merely played music—it has performed Spiritual Art. The Great Work endures...

NEKYIA - The Necromantic Patterns marks a descent into the chthonic realms of transcendence, where the veils of mortality are torn asunder, revealing the hidden currents that weave existence. A ceremonial odyssey through the labyrinthine corridors of Death and Rebirth, this opus embodies the sacred rites of Dissolution and Ascension, invoking the wisdom of the ancients and the spectral echoes of forgotten aeons.

Each hymn within this work serves as an invocation, a key to unlocking the forgotten pathways of Necromantic Revelation. The Elder Keybearer rises once more, heralding the dissolution of ephemeral reality, while the Crimson Litany of Eternal Return chants the cycle of Destruction and Renewal, where blood becomes the offering upon the Altar of Cosmic Upheaval. The Chalice of Fiery Transmutation is raised, brimming with the essence of divine memory and the Sacred Alchemy of the Eternal Return.

In the depths of the coiled void, the Serpent's Oath binds the seeker to the mysteries of dual wisdom and primordial power, as the Oracles of the Abyss whisper the forbidden knowledge of the Eleventh Inversion—a descent into the abyssic unknown that

leads to a revelation beyond the confines of mortal comprehension.

A work of ritualistic resonance and spiritual upheaval, this album is a testament to the Ineffable Truth—one that lies beyond creeds, beyond dogma, beyond the illusion of structured reality. Truth is a pathless land, and NEKYIA - The Necromantic Patterns is the sigil that illuminates the way.
