Opis produktu

"No Lifeguard at the Gene Pool" takes a few attentive listens to begin to unravel the signature intricacies of each track. One could make a case that each and every delectably technical and engaging song on "No Lifeguard at the Gene Pool" is the best of the album, and they would be right. This record features godlike performances in every department, especially in the one that perhaps counts the most in this genre: the production. Death metal fans or enthusiasts of bar-raising technical music absolutely must get this album

For fans of: Botch, Pathology, Dillinger Escape Plan, Behemoth, Cryptopsy, Job For A Cowboy, Suicide Silence
