'A Fallen Temple', the fourth full-length in the long-running career of Greek metal luminaries SEPTICFLESH, occupied a unique space in the band's history upon its original release in '98. The album featured re-recordings from their savage debut LP 'Temple of the Lost Race' interspersed amongst some of the band's most avant-garde work to date. The heightened atmospherics, synthesized orchestration, and angelic soprano vocals affirmed the bold and adventurous creative direction the band had begun to follow, and was the perfect bridge to what was coming with 1999's 'Revolution DNA'. 'A Fallen Temple' is the latest in Season of Mist's series of deluxe SEPTICFLESH reissues, and is now remastered and repackaged by front-man Seth Siro Anton and includes four bonus tracks.

For fans of ROTTING CHRIST, BEHEMOTH, DIMMU BORGIR, CARACH ANGREN, MOONSPELL.
