Opis produktu

(Description by Shawn Haché)
Infamous death merchant VAULT OF DRIED BONES drags a genesis of two of Canada’s most feared from the mire, with the aptly dubbed Warpit of Coiling Atrocities. The demented liers in wait ADVERSARIAL unite with the eagerly bloodthirsty PAROXSIHZEM in the most unholy reconciliation since the aforementioned last surfaced from their aeonic slumber. ADVERSARIAL’s path of harrowing relentlessness collides with the suffocating churn of PAROXSIHZEM’s wall of filth. The once silent wolves are loose and ravenous: breeding contempt and utter blasphemy. Attempt and fail to harness sanity in the descent into the atrocious Warpit!

Not since 2012’s renowned Initiated in Impiety as Mysteries split with fellow mind-rendering countrymen ANTEDILUVIAN has the shadow entity ADVERSARIAL exposed another level of death metal ascendancy. Truly a paradigm-shattering display of what this deviant music is capable of capturing. Once again, a revelation in formless frenzy amplifies the lycanthropic hatred for the feeble herds of Christ. Clarity of vision and sonic execution strikes like a swift arrow through the eye of the blind. Merciless from the initial moment and only pausing for sparse, contorted disintegrations of structure: A barrage of hammering and a respite of torture!

Attaining total manifestation on 2012’s impenetrable self-titled full length, PAROXSIHZEM reach a new apex while sinking deeper into the roiling murk of the inner landscape. A force that is still burning with the fires of initiation sputters forth a pummeling fury that gives way into a cascade of rolling oppression. A rare torturous pace is the only relief found in the swarm. A total realization of death’s awakening! Take notice of the advancing legion: the olde guard shall fall by their own oblivious pride.

A release that was meant for the Vault of death! A combined trinity that ultimately declares:
Never forget where the true lunacy resides.
