Opis produktu

Dark Descent Records proudly presents Solitude with the Eternal, the third album from Canada's blistering, serpentine three-piece Adversarial, on CD/LP/CS and digital formats.

Razor sharp. Slithering. Dual chasms yawn. A Janus-faced entity blinks, looking back and forward through the uncanny gloom. Dual tongues chase each other, slithering past cavities in the broken teeth. Licking against the neck, pulling more offal toward the trough. Each face has a black hole in the iris of each eye. As photons evaporate against the retina on the other side of the event horizon, memory fades. A knew knowledge, imbued from the excrements of microorganisms trickles through the throaty slough. Yes we’ve been here before. Yes we’ll be here again.

The entity known as Adversarial has opened the portal to a timeless realm of suffocation and agony once more. As leviathan doubles back on itself, sulfer rises from the point of crossing, a bouquet of putrid yolk. This foul chemical will sustain nigredo, as metal black as midnight is tempered under atom smashing might.
