Opis produktu

Black 12" vinyl (33 rpm) in gatefold sleeve. Fourth pressing: 100 copies worldwide.

Norwegian multi-instrumentalist SYLVAINE deals with the extreme range of emotions this human existence has to offer, as a result of being in constant conflict with oneself and struggling to adapt to this place we call our own.
The project serves as an emotional catharsis for the artist, revealing the eternal longing for something more residing within its melodies, capturing the feeling of being trapped and restraint by the human form.
'Atoms Aligned, Coming Undone' is a strong duality between worlds, a balance between the beautiful and the harsh, serenity and chaos, between an outside and an inner world, between our human life and the spiritual origins.

For fans of MYRKUR, ALCEST, LES DISCRETS.
