Forged in the shadows of the Swedish black metal underground and long whispered about among devoted followers of the genre, The Triumph of Satan finally emerges on 10" vinyl EP format — resurrecting Triumphator's first recorded manifestation from 1996 in all its savage, unholy glory.

Predating the later Wings of Antichrist era, this recording capture Triumphator in its earliest and most primitive form: raw, violent and utterly possessed by the spirit of the underground. The Triumph of Satan stands as a document from the dawn of the band's existence, revealing the first sparks of the cult that Triumphator would become.
