Opis produktu

DARK SYMPHONIES is honored to announce our cooperation with pre-DARKANE Swedish death metal act AGRETATOR to reissue their one and only long out of print full length "Delusions", for the first time ever on vinyl. Forget what you know about DARKANE, AGRETATOR is raw, down and dirty Swedish Death Metal at the core. This is a must-have to see where Darkane started out!

This LP will be designed after the original 1994 Crypta Records release, taking elements from the original layout with attention to detail, even down to the logo and typeface for a touch of nostalgia. Presented in a 350 gram semi-gloss jacket featuring , this LP features a classic 2 sided printed insert with original band photos, lyrics and brand new liner notes from original founding member and guitarist Christofer Malmström.

ULTRA-Limited to 300 copies, 100 copies will be on classic black vinyl.
