PŁYTA POWINNA BYĆ DOSTĘPNA OKOŁO 5-10 GRUDNIA !!!

When someone does our job it is a real surprise to discover a band like AMALEKIM, first because they are very young (18 years old), second because they are cool, they play well live, they have beautiful graphics and in addition they sound terribly pissed off.

Their debut "':HVHI'" (the band is half Polish half Italian) is an album of pure and beautiful Black Metal and the results it is obtaining give it fame and prestige. "':HVHI'" is divided in a "freezing" and a "burning" chaos concept, the first half of the album is full of Epic and melodic riffs, technical drum parts, raging bass and ferocious vocals that slowly start the listeners journey to the point of no return.

After the first part of this journey, the listener will face now the second part of the record, more ferocious and fast. HVHI is recommended album to all type of black metal listeners since every track has its own type of incantation. A concentrate of gloomy, dark and brutal atmospheres, with great sustained rhythms, breathtaking riffs, bass hammer, and a truly captivating, omnipresent voice.

The birth of a true cult!

The CD comes in a Deluxe Edition with a triple panel gatefold cover in 7" format, limited to 500 copies.
