ANCIENT BLACK ART - NIDROSIAN BLACK METAL

154 page hardback book, large format (A4) pages. Over 200 images, including approximately 100 colour images

Nidaros: Medieval name for the city and municipality now known as Trondheim. Nidaros was the capital of Norway from 997 AD until 1217 AD.

Home to early Norwegian black metal bands such as Thorns and Manes (as well as the cathedral that famously appears on the cover of Mayhem's *De Mysteriis* album, Trondheim became a hotbed of activity in the-2000s. Created by the author of the underground fanzine **Ancient Black Art, Nidrosian Black Metal** pays tribute to the prolific yet secretive Norwegian black metal circle in Trondheim.

The book features a wealth of both black and white and colour **photography, artwork, lyrics, flyers** and **documents** relating to such stellar acts as: **MARE, KAOSRITUAL, ONE TAIL ONE HEAD, SLAGMAUR, CELESTIAL BLOODSHED, SELVHAT, WHOREDOME RIFE, APTORIAN DEMON** and **BLACK MAJESTY**.

Compiled with the permission and cooperation of participants within the circle and the family of the late Steingrim Brissach (Celestial Bloodshed and many more).
