Opis produktu

California death metal force **APPARITION** will release their new album “Disgraced Emanations From A Tranquil State” on March 22. The follow-up to 2021’s lauded “Feel” sees the band traverse further into the realms of otherworldly doom-riddled progressive dark death metal.

Since the conception of the band, APPARITION has been about creating an individualized version of death metal, all the while paying homage to its ancestors. “Disgraced Emanations From A Tranquil State” offers a dynamic range, from the brutal to the beautiful. A still expanding glimpse into the APPARITION cannon. A lathe of infinite death remaking itself—horrific and pristine.

“Disgraced Emanations From A Tranquil State” was produced by APPARITION bassist Taylor Young (Twitching Tongues, Deadbody) in The Pit Recording Studio and Electrical Audio respectively and mastered by Nick Townsend at Infrasonic Sound.

Track Listing: 1. Asphyxcreation, 2. Imminent Expanse of Silence and Not (or Not), 3. Paradoxysm, 4. Excruciating Refuge in Reoccurring Torment, 5. Inner Altitudes, Light Transference, 6. Circulacate
