Opis produktu

"Ferd" resulted from a lengthy immersion in Northland, a step in the wanderer's northbound Journey. And AURVANDIL have truly succeeded to drink from the Nordic waters of knowledge and walk through the forest and grief of Hordaland. What you can hear is something unique, raw & atmospheric, eerie and very indepth norse sounding black metal, as it would have been recorded 91 - 93, it has been a long time since a record was so bloody authentic. AURVANDIL managed here to revive the whole spirit of northern black metal so close to eternal elder giants, evoking the lost glory of ENSLAVED's and ISVIND`s early days. With "Ferd", a first trace has been left in the snow, but the journey continues...
