### Opis produktu

Now unleashed! Osmose Productions presents the reissue of the 2004 Axis of Advance album "Obey" on CD / LP. 8 attacks of chaotic, technical, militant black metal.

Anguished vocals praying for war and death upon the corrupted. Razor sharp guitars pushing inverted riffs and pounding wrath in all directions. Mind numbing nuclear drone bass hypnotizing all into mental submission and final defeat. Hammered down with a wave of chaotic artillery percussion devastation and a prophetic lyrical concept outlining the horrors that lay ahead. In wait lie, in wait lie, reverse the curse from the inside. In wait lie, waiting to die, give me my war cowards! Mankind is the weakest link in the chain - broken at long last! Hail the end....

Re-issue, 200x black 12" (180g) in a black poly-lined innerbag, download card, gatefold jacket, full-color - black flood inside on 350g with UV partial lacquer, all assembled in a PVC overbag.
