### Opis produktu

Now unleashed! Osmose Productions presents the reissue of the 2002 Axis of Advance album "The List" on CD/LP. 8 tracks of chaotic, technical and militant black metal. Tortured paranoia inducing vocals, surrounded by technical discordant guitars that slice through the collective conscious hope.

Low end bass that rumbles like a wall of flames engulfing humanity, pushed forward by hostile schizophrenic machine gun drumming and a lyrical concept that squeezes to death the very soul of man. The acrid stench to rotten flesh travels fast along the muddy earth.

Hail the end!

Re-issue, 200x black 12" (180g) in a black poly-lined innerbag, download card, gatefold jacket, full-color - black flood inside, on 350g with UV partial lacquer, all assembled in a PVC overbag.
