Opis produktu

After a quarter of a century dwelling in the shadows after being initially presented on CD only by Nazgul’s Eyrie, “Hailstorm” is vomited from Hell on vinyl for the very first time. Obscure, minimal, pulsating, bass-heavy black metal spawned from the early days of the Finnish extreme metal underground. Possessed by the same evil as “Drawing down the moon”, this album is guaranteed to please the ears of anyone into early Necromantia or Beherit.
