Opis produktu

DIGIPACK CD

The sixth seal of Battle Dagorath' saga will indeed stand as their best album to date by many aspects, last but not least a sharp and definite production that's giving full emphasis to their majestic and epic songwriting (counting over 73 minutes of aural battle this time...)

A crushing Spectral Black Metal soundscape that unlocks a visionary journey into the third eye. Abyss Horizons represents the unraveling of your unconscious Ancient dreams, crossing the abyss into transcendental Magic realms. Traversing the boundaries of this dimension, the shadows of transformation are now awakened to restore the illumination of the Great Darkness.
