BIDIRNA DHAMANI (Kolkata)
"Ojash" CD

After two oppressive demos released in 2023 and 2024, this duo formed by Durgaddha and Nistarakya return with their debut full-length recording.

Part of the Kolkata Inner Order, the infamous collective combining projects like Tetragrammacide, Nirriti, Naramedha, Aparthiva Raktadhara, etc., Bidirna Dhamani erupted from the ashes of Kalki's blade to raise chaos and evil once again upon the feeble.

After two demos of sulfurous and ritualistic Black/Doom Metal, "Ojash", while still maintaing those elements, follows a more direct, murderous, bludgeoning path, certainly emphasized by the slightly cleaner, yet still viscerally obscure production.

Mixing the dark, oblique, rumbling riff-heavy style of old school West Coast Death Metal acts like Incantation, Morpheus Descends, Baphomet and even Morbid Angel to some extent, with big, portentous, fast riffing, able to grind and crush with tectonic force entire mountain ranges, with the Black/Death barrage of acts like Teitanblood, and their characteristic Ritual Folk percussion and samples. 6 tracks of venomous, insidious ritualism and occult power of the mystics unleashing plagues from the ancients.
