Opis produktu

Born on the fertile cradle of Kolkata Inner Order and inebriated by fermented draksha rasa with minds unchained by holy smokes of charasa, BIDIRNA DHAMANI has taken Death Metal to a more psychedelic domain, closely rooted to forgotten traditions and magical practices of indigenous shamanic systems of ancient Gauda Empire, now known as Bengal! And the underground eventually took notice of it as Goatwarex summoned their self titled demo and 2024 EP "Brihot Buru" on cassette tape format!

Compiling both the demo and the EP and with Martial Opium (TETRAGRAMMACIDE) assigned to create the original artwork, 'Pannavimutta Paccaniyani' is a near-50-minute long aural submission into the realms of necrosophic sorcery and doom hypnosis, probing across the subconscious sea of ancestral memories, as a remembrance of our dark spiritual inheritance!

For fans of Incantation, Grave Miasma, Necro Schizma and in between!
