Opis produktu

The definite war metal split album, available again on vinyl. Comes with two inserts and sticker.

Black Witchery is apex venomous and barbaric black/death metal. Utterly demonic and evil primitive material, considered to be their best output by many.

Conqueror created a new breed of the most hateful and violent storm of black/death metal the world had ever heard before with the legendary “Anti-christ supremacy” demo.

A cult release originally issued in 1999 and out of print for many years, both bands pioneered with extremism on a level that would create a new subgenres with countless of bands copying the style. As all Heidens Hart titles, this release is fully official and licensed by all bands and labels involved.
