Opis produktu

Always improving, original and legendary black metal from Russia. 21 years after the debut comes *Phantasmhassgorie*, the unusual name for the ninth album of unusual band. A conceptual album around hate. Nauseating and possessed riffs, hateful vocals in German as always, great compositions and performed with military precision. Throughout the years, the band has toured Europa on regular basis with bands like Inquisition, Barathrum, Archgoat, Countess, etc, and as such always managed to escape the trendy subcategories of the genre and create true black metal for devotees only. Album mixed and mastered by TT / Abigor at Hell-Lab Studio, recorded by Konstantin Dolganov at Hiboll Studio. 8 tracks, 45 minutes playing time.
