"Brazil is the most Black Metal country in the world and the times were great playing with such historic bands as Holocausto Goatpenis and Sextrash. Total legends for you who know of these historical bands of Brazil!

We were lucky enough to have other bands on the list and of course Douglas from Mausoleum was with us as well Armando from Mystifier, Ronaldo from Satanicristo (ex-Impurity) and without Eduardo Beherit none of this would have been a possibility...

Top promoter and record label in Brazil and true brother for life... Not to mention Leprous from Sarcófago was playing one of the nights in Belo Horizonte.

São Paulo was great again and Blasphemy hopes to return to see all our brothers from Brazil! This release is a true blasphematic piece of history from Hell!"

Darkness Prevails!

Nocturnal Grave Desecrator and Black Winds.
