Producent	Nuclear Blast

Opis produktu

The Blind Guardian album Somewhere Far Beyond is the fourth in the band's long history and the first album that the band released via Virgin.

The album was released in 1992 and features band classics such as Time What Is Time, Journey Through the Dark and of course the track that everyone sings along to live, The Bard's Song - In the Forest.

In August 2024, the work will be released as a revisited reissue.
