Opis produktu

Borgne path has never been straight. Founded in 1998, when it debuted with a demo, the project went off the radar for almost a decade, coming back at full throttle in 2007 with two albums released almost simultaneously. Another ten years after, we are proud to add the Swiss band, which recently became a two-piece, to our roster.
To introduce the new, impending studio album [8], we asked multi-instrumentalist veteran Bornyhake a comment:
“8 is not only a number but a symbol, symbol of infinity, infinity you close inside brackets.
8 is not only a number but a word, word of hatred to break all the brackets.
After twenty years of chaos, [8] is the 8th Borgne full-length album.
Featuring 8 tracks of non-traditional black metal, written in French and English. Chaos, darkness, feelings, loneliness, anger, insanity, suffering and death... 8 words to describe it.
The most electric and complicated, fragile and deep, industrial and cold, strange and tormented album Borgne ever did.
Lovers gonna 8.” And Bornyhake is right: [8] is an evil, evocative opus of industrial black metal that will freeze your every feeling.
