Producent	Shadow Kingdom Rec.

Opis produktu

Italy's BULLDOZER should require little introduction. During the 1980s, they were the even-uglier alternative to Venom and Motorhead, and made their name with such anthems as "Whiskey Time" and "Ilona the Very Best." They also had an utterly wild, over-the-top presentation and visual aesthetic, all embodied in accurately monikered frontman AC Wild. They were a cult band before "cult bands" were such a thing in the metal scene. In short, there was one - and only one - BULLDOZER.

And the BULLDOZER legend began in earnest with the release of their debut album, The Day of Wrath, in 1985. Right from the scene-setting intro of "The Exorcism," The Day of Wrath kicks into high gear and BULLDOZER proceed to kick the asses of all and sundry. Dark and dirty but definitely fun, the band's debut album sounded like it came a dungeon, but there was no denying the strength of its songwriting. Deceptively simple but exceptionally effective, BULLDOZER here approximately their moniker with a ragged uptempo pulse that charged and charged and charged, on and on and on, letting the waves of dingy riffing wash over you with their addicting filth. Still, while contemporaries like Bathory were aiming for very real evil, BULLDOZER drew inspiration from Italy's rich tradition of horror - and partying. Definitely partying: This is the record that houses "Whiskey Time," after all.
