Opis produktu

PŁYTA POWINNA BYĆ DOSTĘPNA OKOŁO 15 MAJA !!!

Four once lost, archeological Italian black metal demos saved just in time before final perishment and compiled into one 41 minute disc. Raging ultra harsh material from the era when this most blasphemous wing of metal music wasn't corrupted with commercialism nor fragmented to hundred sub-subgenres of a subgenre. It's noisy, raw and radical even for a Bestial Burst release, but there's this charm of old obscure demo cassettes you can not duplicate nowadays. 666% ancient underground torture not for trendy ears. Comes with a 12 page booklet including all demo artwork and flyers.
