CADAVER's legendary 'Hallucinating Anxiety' debut album is now reissued with a brand new artwork and a powerfully upgraded sound.

Before the black metal storm engulfed Norway, CADAVER delivered Raw, unfiltered, and terrifyingly innovative. 'Hallucinating Anxiety' debut had deeper intentions than being just an album; it was a declaration of war on polished music and convention. Recorded on a 4-track cassette player and deliberately mixed in mono to preserve its suffocating atmosphere, this is the sound of pure, unadulterated creativity forged in the underground.

This is the sound that started it all. And CADAVER is now bringing it back.
