Opis produktu

Liverpool’s legendary Death Metal pioneers Carcass (who still tour extensively to this day) are often credited with shaping the entire death metal genre. Pushing boundaries with their shocking imagery whilst evolving and innovating with each new album. Heartwork is widely renowned as the best Carcass album with its melodic intricacies.

Released with the full support of the band, this infamous album returns with second disc containing 10 original demo recordings, now available on vinyl for the first time ever.

The album was specially recreated using ‘FDR’ – full dynamic range mastering - pressed from the original master tapes, allowing the music’s nuance to shine through and giving these classic albums a more ferocious and dynamic sound, enabling the listener to immerse themselves in the full audio heaviness.

Track Listing:
