Opis produktu

Comes with a 16-page booklet.

“Vitriolic Atonement is a sonic and visual exploration of the dreadful yet beautiful aspects of life and death,” they begin. “It was a comprehensive work for us, where not only the music and lyrics but also the artwork were really central from the start.”

Indeed, lose thyself in the hypnotic layers of that cover art and you'll begin to understand the experience that awaits within Vitriolic Atonement. In a most disarming fashion, Celestial Grave here sound both bolder and more brittle – robust lead lines painting melancholy and might in equal measure, the execution seemingly more scattered and strident, the songwriting tending toward the anthemic yet upended by haunting twists of texture – whilst not losing that mesmerizing personality that made its predecessors so compelling. As such, Vitriolic Atonement is a full-album experience that's paradoxically more approachable and more alien: allow that wounded melodicism into your soul, all enticingly come-hither, and then witness the swirlingly obsidian rot spread.
