Opis produktu

Four years after the release of their celebrated debut “Dominion” Atlanta’s Cemetery Filth make their triumphant return with their brand new EP, “Senses of Detriment”.
With frontwoman Maddie Kilpatrick as the sole original member, the line-up may have changed, but the band has only gotten stronger, ushering in a new era by taking the band’s sound to the next level with the addition of a more technical and formidable rhythm section in Tristan Payne (drums) and Evie Austin (bass).
Cemetery Filth pride themselves on their new advancements and continuing ability to craft a multitude of twisted riffs and highly memorable hooks without sacrificing an ounce of brutality and ruthless persistency.
Death Metal bands are in abundance these days, but Cemetery Filth stay relevant and stand out with their formidable songwriting and performance.
