Opis produktu

Official reissue of the debut full-length, previously only available on vinyl/tape/digital since its June 2021 release, by this two-headed Dutch Death/Doom Metal abomination. Maurice De Jong a.k.a. Mories (Gnaw Their Tongues, Cloak of Altering, De Magia Veterum, Dodenbezweerder...), and Rene Aquarius (Cryptae, Dead Neanderthals, Imperial Cult, Plague Organ...) join forces in Coffin Lurker, a repulsive experiment begotten unto a perverse delusion of ushering Death/Doom Metal beyond extremes of heaviness and horror it has never before seen or fathomed. Overwhelming and atrocious in its every aspect, on their hideous debut album the Dutch terror-doom duo set out on a mission of terrifying extremism to take Death/Doom Metal to its most harrowing consequences, crossing every threshold of extreme known, to materialize a humongous slow moving nightmare of paralyzing and blood-curdling horror that will flatten the listener and devour them inside a nauseating void. Emanating with a monstrous and oppressive aura of total death and decay, “Foul and Defiled” is a gargantuan sepulchral entity of subterranean megaton Death/Doom Metal rising from an underworld of ageless and unnameable demise and suffering that sonically aims to re-evoke the hideous and death-obsessed immensity of other underground extreme/experimental abominations, while taking the heinous formula, if possible, even beyond its own already incomprehensible and remote confines of sanity. Utterly recommended to fans of Encoffination, Grave Upheaval, Primitive Man, Spectral Voice, Catacombs, Moss...
