Concrete Winds (FIN) - Primitive Force

VORUM is dead! CONCRETE WINDS is deadly!

After the outstanding Minialbum 'Current Mouth', finnish VORUM ceased to exist. But the dead can not die for they are still hungry.

Up from the ashes a new phoenix rose: CONCRETE WINDS released one of the most bestial recordings ever erupting from the far north by the name 'Primitive Force'.

25 minutes of pure blasphemy, sadism & dystopia.

In spite of the utmost shredding, thundering and screaming, this album still has musical ambitions. Where 'Current Mouth' ended, 'Primitive Force' starts and drives every audial aspect to the maximum. On the other hand this release keeps every layout aspect to a minimum.

CONCRETE WINDS reduce everything to a lo fi, cut & paste undergroundish presentation.

They set a statement and raise the middlefinger to a distraction shot from what is relevant.

The pure magick of a Death Metal sound and gospel.

Some want to see the world burning, CONCRETE WINDS serves them a primitive torch.

Available for the first time as limited music cassette
