Opis produktu

We went back to 2001!

The re-release of CORPUS CHRISTII's The Fire God is truly an exciting event for fans of underground Black Metal. Originally released in 2001 by Hiberica and later reissued by Sadolust in 2006, the album has always been considered a vital part of the Portuguese Black Metal history. This edition marks the return of an essential piece of the genre that has been long sold out and in high demand.

The new edition features a re-arranged layout, includes the original tracklist, ensuring that the listener experiences the raw energy and atmosphere of the record as it was intended. Worth the mention, of Mayhem's iconic cover of "Buried by Time and Dust," which features a guest appearance by Necrobutcher on bass, making this release even more noteworthy for fans of both CORPUS CHRISTII and Mayhem alike.

For those who have followed the Portuguese underground Black Metal scene, The Fire God stands as an essential milestone in the genre. Its reissue on both Compact Disk and 12"LP Vinyl ensures that collectors and new listeners alike can once again immerse themselves in the dark, intense soundscape that CORPUS CHRISTII conjures.
