Opis produktu

CD with 12-page booklet.

With 'White Noise and Black Metal', Sweden's CRAFT return to strength after a long hiatus. The forthcoming album combines the vitriolic virtues of 'Terror Propaganda' (2002) with an updated songwriting that is as mature and intelligent as it is razor-sharp. The fast and furious of extreme metal contrasts with dark and depressive passages with added undertones of black 'n' roll. Now CRAFT are ready to take a giant step in their career with the extremely strong 'White Noise and Black Metal'. This is misanthropic Swedish black metal honed to perfection.

For fans of early-DARKTHRONE, ARMAGEDDA, PEST, URGEHAL, TSJUDER.
Artwork by Zbigniew M. Bielak.
