CRYPTOPSY Blasphemy Made Flesh DIGIPAK [CD]

Cena	59,90 zł
Dostępność	Dostępny
Czas wysyłki	5 dni
Producent	Hammerheart Rec.

Opis produktu

Technical death metal is a genre now becoming very popular these among the seas of endless heavy music, and also one of my favorites to listen to and play. I've found this Cryptopsy release to be one of my favorite ones, especially sense Cryptopsy has been able to help further raise the bar and influence many modern technical death metal bands today. There is a lot that I like about this album, being that it is their first full length, and even at the time at which it was recorded, it sounds really, really surprisingly good. It was 1994, and although it wasn't the best sounding production that had ever been produced, it is still fun and brutal enough for me to rotate in for a couple of listens. Not a typical stunt for a band to be performing at the time of this record's release, but never the less, there was something to brag about upon these guys entering the scene with their truly progressing talent. This again, is another one of those albums whose songs all seem to flow together pretty well, and there wasn't one that I didn't like, as I am the type of person to tend to rotate an entire album, and I can usually find to like ALL or most of the songs on the record, not just the 1 or 2 good "hits" that people will usually waste money buying the whole CD for.
