### Opis produktu

**Cryptopsy's None So Vile is an album that needs no introduction to fans of death metal. It has been heralded by many a metalhead as one of death metal's crowning achievements. The hype is well deserved. The stars must have aligned when None So Vile was recorded because only a miracle could have brought upon us an album of this magnitude. What we have here is a near-perfect blend of brutality, technicality, songwriting, and atmosphere. None So Vile is a masterpiece of sonic depravity that, still to this day, remains one of the most sickening, nefarious, and inhuman albums ever released.**
