CYNIC has made its long-awaited return with ‘Ascension Codes,’ the highly anticipated follow up to 2014’s critically acclaimed ‘Kindly Bent to Free Us.’ ‘Ascension Codes’ is the latest evolution in CYNIC’s legendary career as the band is now fully immersed within the progressive rock genre, once again exploring new territory and pushing the boundaries as they boldly step outside their comfort zone to reach a new apex of musical proficiency. The album takes the listener on a cosmic journey through space and time, balancing polished technicality and moments of peaceful ambience, creating a dynamic experience that is filled with both bright energy and calming peacefulness.

For fans of ATHEIST, OPETH, DEATH (later).
