DARKSPACE's second album, entitled "Dark Space II", was released in 2005 and is considered a logical continuation of their first album but displays a greater presence of electronics.
It consists of 3 tracks, for a total of more than fifty minutes of travel!

Cult ambient black metal pioneer DARKSPACE (ft. Members of Paysage d'Hiver + Sun of the Blind) is now reissuing its complete discography, which includes four full-lengths and an EP, via Season of Mist!
Dubbed “The Most Mysterious Anonymous Blackest Black Metal Band,” the enigmatic Swiss trio is known for their hypnotic and otherworldly sound, which has greatly influenced modern atmospheric and cosmic black metal as we know it today.
The band will be releasing a brand new album via Season of Mist at a later date!

For fans of PAYSAGE D'HIVER, SUN OF THE BLIND, ARKHTINN, OMEGA INFINITY.
