### Opis produktu

The 2007 offering, which marked 20 years of Darkthrone.

With FOAD, the legendary Norwegian Black Metallers delivered a magnificent and unique slab of Evil Rock/Black Metal.

Recorded, mixed and self-produced at the band's own Necrohell 2 studios throughout the first half of 2007, this labour of love (or is it hate?) travelled deep into the band's rich musical heritage.

A celebration of Rock and Metal - moving further from the primitive Black Metal Darkthrone were once known for - FOAD still embraced the roots of what made the band so special. Yet still, Darkthrone only exist

Summarised perfectly by Fenriz, "FOAD sounds like a war between Atlantis and the rest of the planet!."

Features cover artwork by Dennis Dread who was also responsible for the visuals on Dark Thrones And Black Flags and Circle the Wagons.

180gm vinyl in gatefold sleeve.
