Opis produktu

“SlaughterSun (Crown Of The Triarchy)” is DAWN’s majestic and captivating 1998 album which is widely considered a masterpiece of Swedish black/death not unlike other genre leaders like Dissection or Sacramentum. Having become highly sought-after rarities, all DAWN releases are now being made available again with remastered sound by Dan Swanö (Edge Of Sanity, Asphyx, Dissection) and done in full cooperation with DAWN’s mastermind Fredrik Söderberg.
