Opis produktu

The sixth installment in Relapse's exhaustive reissue campaign of **DEATH**'s immensely influential catalog is *Leprosy*, the band's titanic second album. Originally released in 1988 *Leprosy* was a pioneering album, building upon the thrash sounds of Metallica and Slayer but adding a previously unheard level of raw extremity. These songs are the roots of an entire genre: death metal. While this was only the second record **DEATH** released, it immediately cemented them as heavy metal icons. Meticulous care has been put into this reissue. The entire album, as well as the bonus material has been painstakingly remastered by Alan Douches (Mastodon, Nile, etc).

Deluxe 2xCD contains 50 minutes of previously unheard and unreleased *Leprosy* demos and rehearsal material housed in an embossed o-card package with a 24 page booklet featuring unseen pictures of the band as well as brand new liner notes from Ian Christie (Sirius/XM) and Jeremy Wagner (Broken Hope).
