Producent	Relapse Rec.

Opis produktu

Foil Jacket - Violet, White and Red Merge with Splatter

DEATH's legendary 1987 debut *Scream Bloody Gore* is more than just an untouchable album - upon its release, it was positively genre-creating. *Scream Bloody Gore* founded the quintessential death metal sound, with more tormented riffs, screams, and leads than the world had ever imagined, and established Chuck Schuldiner's inimitable phrasing and songwriting style as the most singular voice in the burgeoning genre. Today, the album is viewed unanimously as one of the all-time most important cornerstones of death metal. Like the preceding DEATH reissues, the deluxe reissue of *Scream Bloody Gore* has been meticulously remastered from the original tapes by Alan Douches (Death, Mastodon, Nile) and includes a plethora of bonus content, including previously unreleased recordings and rehearsal demos, super-expanded packaging, and brand-new extensive liner notes from former DEATH drummer / Autopsy founder Chris Reifert, Sepultura's Max Cavalera, and original *Scream Bloody Gore* producer Randy Burns.

Side A :

Infernal Death / Zombie Ritual / Denial Of Life / Sacrificial / Mutilation / Regurgitated Guts

Side B :

Baptized In Blood / Torn To Pieces / Evil Dead / Scream Bloody Gore / Beyond The Unholy Grave / Land Of No Return
