Opis produktu

Me Saco Un Ojo Records and Dark Descent records are proud to present the debut album of Seattle death metal brutes Degraved.

Following a couple of demos, an EP and a split, Degraved are ready to present their savage death metal in full length form so prepare for total devastation. Bludgeoning blast beats and crazed guitar riffs conjure a cavernous and intense backdrop of malevolent morbidity while the snarled vocal torment seeps through the mix to give lyrical lacerations to the hideous deformities. Slower passages add an eldritch atmosphere to the ruthless barbarity and further accentuate the grander picture of excellent material that the band has to offer on their debut album.

Degraved harnesses the 90s death metal sound gloriously while mixing these classic elements in a furious manner that will have you hooked for the long haul. The further you descend into the graves with this record the more it sucks you in with its old school charms and captivating displays of menacing hostility. Between the blasting armageddon you will find atmosphere, well-placed solos and interesting hooks that all showcase a maturing of the band’s material while keeping the main element exactly what you want it to be; pure death metal.
